Coming home

Ray Charles, Louis Armstrong, John Mayer, Radical Face and Michael Kiwanuka... These musicians may not seem to have a lot in common, but in fact they share a passion: a love for the place they live. Their songs often contain comforting and nostalgic words about a special place called home.

There are countless sayings, songs, and poems about home that resonate for good reason. They have been generating warm and fuzzy feelings for ages - a comfy sofa for an afternoon nap, a favorite chair, a cozy bed and of course mom's cooking...

Because home is such a special and important place, we at Gazzda love to make extraordinary furniture for it. We want to help you create a home you can be proud of... that gives you butterflies merely when thinking

about it... which generates a feeling of warmth and comfort when you talk about it... revives and inspires when you are there... a place where you can flourish, dream and simply - be happy.

We are here to build that special place together with you, so you can proudly tell your own stories about home, sing songs about it - or even better- enjoy it with your family and friends.

We exist to help you realize this dream place... we exist to welcome you home.

It's a soul thing

Salih once said: *"For me, designing is like a game - just like a child of three plays with toys, I consider my pencil a joy! I design for pleasure - it's never a chore"*.

Salih practices what he preaches; so one day he took his pencil and blended some of his sweet childhood memories together with flashes of futurism. He started to draw lines that reminded him of days long past, days from the 60's, filled with love, soul and passion. His shapes and ideas were refined with modern, light touches... distinct elements that form the character of what would be the first Gazzda collection. He named it after his most precious creation to date: his young daughter Ena.

Our designers will continue doing what they love to do: bringing you joy with our creations and turning your house into a home - one filled with authentic furniture crafted with a playful mind, warmth, and positivity.

Location: Bosnia and Herzegovina - mountain Vranica - river Jezernica

Our roots

When I ask people, “What do you know about Bosnia?” most people come up empty handed. So I start telling beautiful and impressive stories about Bosnia, because I find it an inspiring place where I’ve been a welcome guest for many years. Now I even call Bosnia home (originally, I come from The Netherlands).

Bosnia’s natural beauty is astonishing - it holds many world-class gems like the *Neretva River* and the *Kravice Waterfalls* in addition to countless beautiful lakes and woodlands (including Europe’s largest virgin forest). Seemingly countless trees grow here, many older than the forest rangers can remember, and some so tall, they seem to grow to the sky. They blanket impressive, green mountains that tower over surrounding valleys, like the one where our cherished home Sarajevo lies.

Next to exquisite nature, Bosnia has a lot more to offer. It is a country where Eastern and Western cultures blend together, with a long tradition of music, movies, fine arts and craftsmanship including fine metal- and woodwork and of course, furniture production. This impressive

combination might lead you to believe Bosnia is an ideal place for making remarkable furniture... which is exactly what we thought as well.

You can be sure that all of Gazzda’s pieces are made with an abundance of passion, skill and joy. Each design contains authentic materials and is shaped and polished by the hands of Bosnian craftsmen.

Our sincere hope is you will enjoy living with, and using our furniture in your home, as much we do making it in ours.

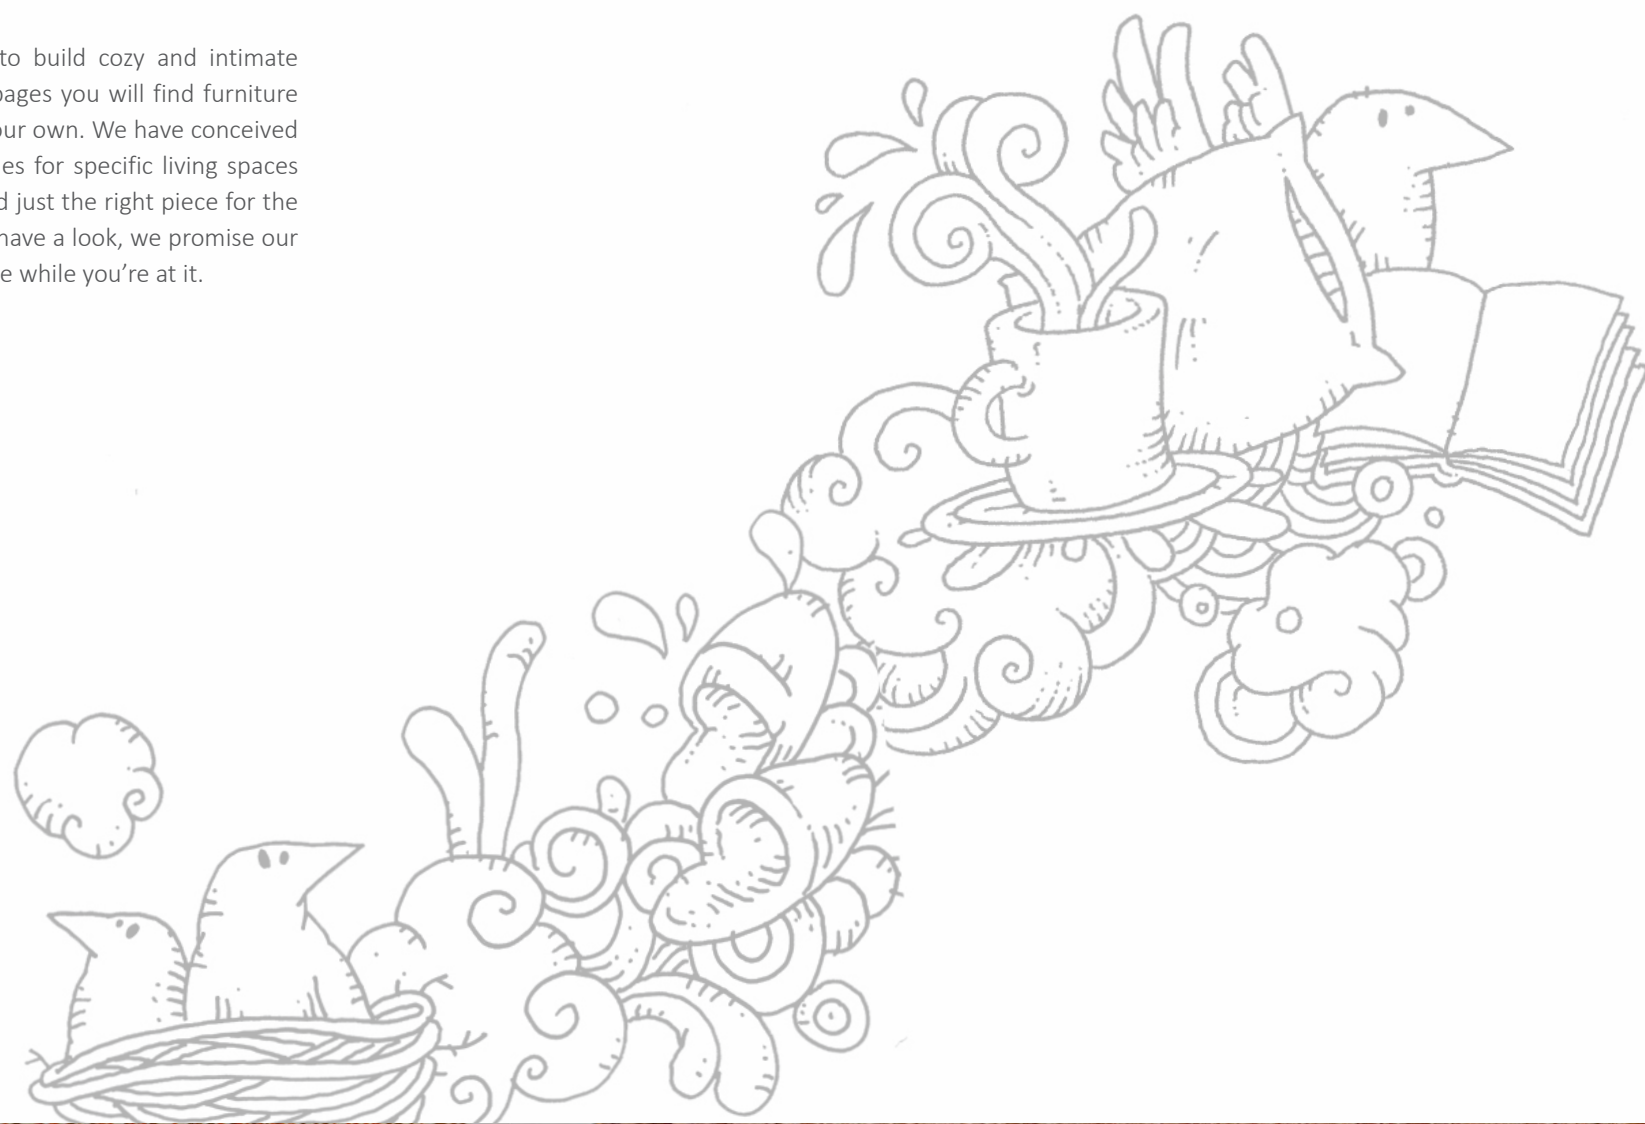

Co founder, Kenny van Halderen

Getting cozy

You might have noticed - there's a bird flying around in this catalogue. That's because we believe birds embody the 'Gazzda' spirit. They are free beings that build their own nests and tend them carefully. We find them to be an excellent example for us.

Just like birds, we strive to build cozy and intimate homes. On the following pages you will find furniture that will help you create your own. We have conceived furniture with functionalities for specific living spaces and did this so you can find just the right piece for the right room. Go ahead and have a look, we promise our feathered friend will behave while you're at it.

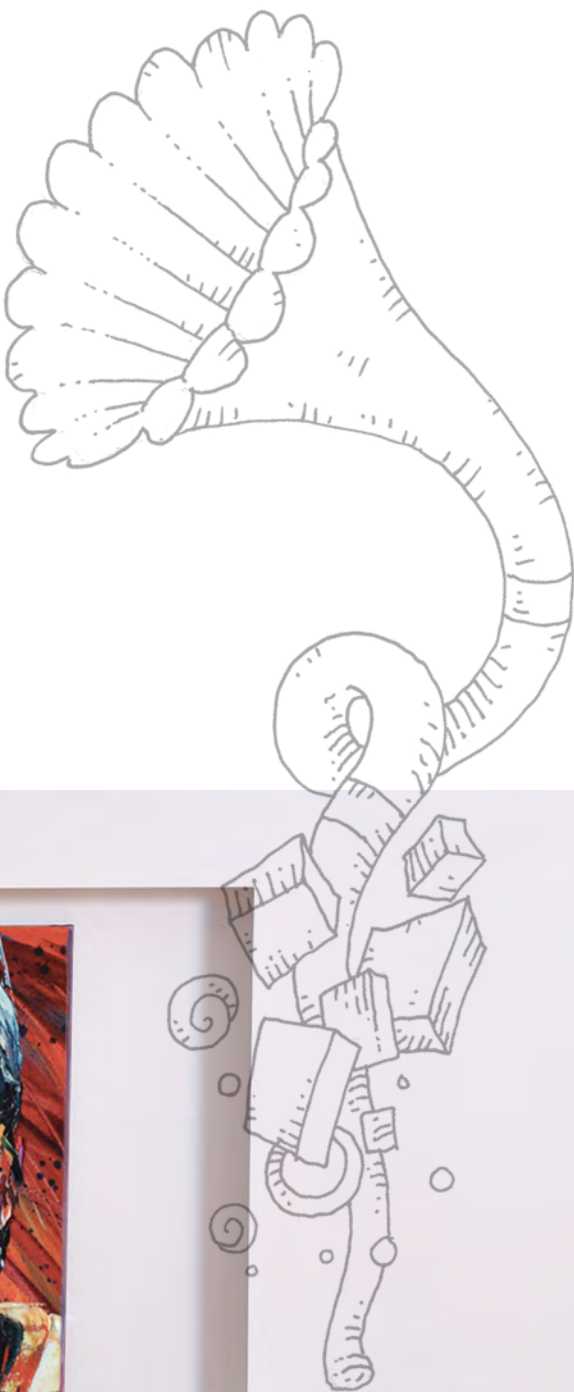

LIVING ROOM

Babe, I love what you've done to the room

...
Let's get it on.

Ena club table

W: 90 cm D: 90 cm H: 35 cm

DESIGNERS

Salih Teskeredžić

There are many things that drive this friendly and down-to-earth innovator: For Salih, it's imperative for each product to embody an emotion. The design process is pure pleasure for him, as a pencil is like a toy - sparking creativity and imagination.

Salih lives for design and loves to share his passion with others - so beyond his work as a designer, he has been teaching promising youngsters industrial design since 2004.

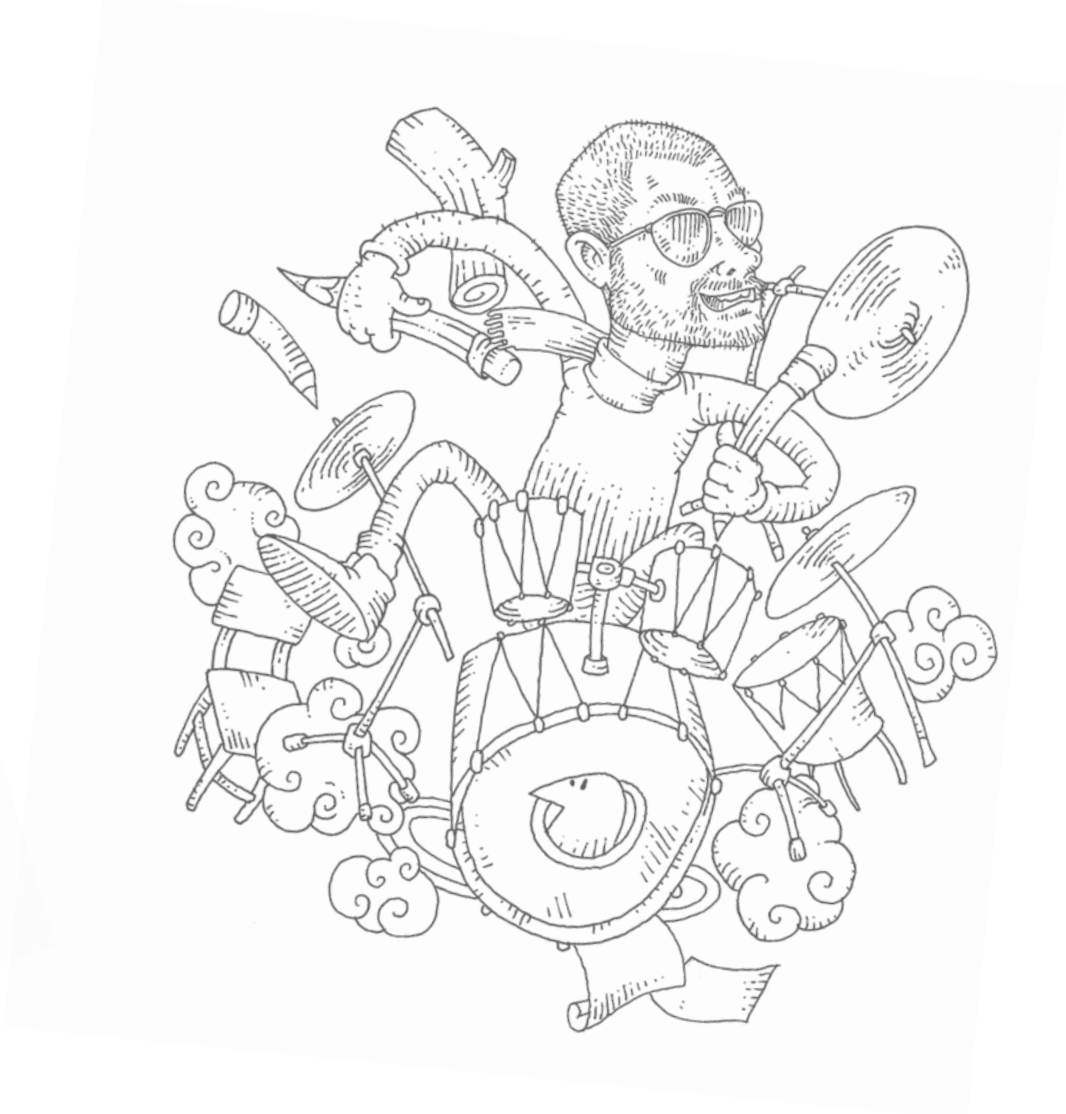

Salih's work is internationally renowned, having received many awards and accolades. You can see more of his work on his website www.teskeredzic.com.

Mustafa Čohadžić

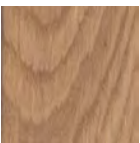

You might say Mustafa has furniture design in his bones: he grew up in a family that produces handcrafted furniture and as a teenager was already designing and constructing his own pieces in the family workshop.

Mustafa has evolved into a devoted product designer with a few other talents up his sleeve: He plays the drums, and sometimes surprises friends with a guitar serenade. We know him as a vibrant character who enjoys eliciting a laugh.
