Materials, properties and details

Components The frame is composed of metal tubes, round section, Ø25 mm and central beams fixed with screws. The frame is pretreated with one coat of zinc primer and then powder coated with weather resistant polyester varnish of the following colors: matt black (RAL9005) and white (RAL9010).
The frame is wrapped in a 3D-woven textile, stretched and fastened with zip. The finishings available are black or white.
Gliders are made of plastic material, transparent coloured.
Packaging is made of an undulated double wave cardboard box (disassembled) or bubble plastic (assembled) and protective elements.
