Materials, properties and details

Components

The **frame** is composed of metal tubes, round section, Ø25 mm and central beams fixed with screws. The frame is pretreated with one coat of zinc primer and then powder coated with weather resistant polyester varnish of the following colors: matt black (RAL9005) and white (RAL9010).

The frame is wrapped in a three-dimensional honeycomb fabric, stretched and fastened with zip. The finishings available are white and black.

Gliders are made of plastic material, fixed with screws.

Packaging is made of an undulated double wave cardboard box (disassembled) or bubble plastic (assembled) and protective elements.

Requirements

This article has been tested with the following standards:
-NSS UNI EN ISO 9227:2012 Corrosion resistance

REACH is the European Union regulation that addresses the production and use of chemical substances. This product contains only substances compliant with the above-mentioned regulation and does not contain any "substance of very high concern" (SVHC).
