Materials, properties and details

Components

The **frame** is composed of round steel rods, Ø12 mm, chromium-plated or pretreated with one coat of zinc primer and then powder coated with weather resistant polyester varnish of the following colours: matt black (RAL9005) and white (RAL9010).
Seat and back are made of a flat braided rope, high tenacity polyester without core, handwoven to the frame. The finishings available are black, white or blue coloured.
Gliders are made of plastic material, neutral coloured inserted into pre drilled holes on sled base.
Packaging is made of an undulated double wave cardboard box and protective elements. It contains 2 pcs.

Requirements

This article has been tested with the following standards:
-NSS UNI EN ISO 9227:2012 Corrosion resistance
REACH is the European Union regulation that addresses the production and use of chemical substances. This product contains only substances compliant with the above-mentioned regulation and does not contain any "substance of very high concern" (SVHC).
