Sleeping functions types

Type A - DELFIN

A trolley that slides out from under the sofa provides an easy and fast unfolding. A thick layer of foam levels the sleeping surface with the seat.

Type B - LEOPARD

The automatic Leopard system provides an easy unfolding, using one hand only. All you have to do is slightly lift up the front of the furniture and then pull it towards yourself to slide out the seat. This system offers the most comfortable and level sleeping surface.

Type C - TROLLEY

Slide the trolley out of the furniture item by pulling it towards yourself and then turn the seat to even out the sleeping area.

Type D - SEDALIFT

The automatically unfolded SEDALIFT section slides out from under the furniture item - first slide the trolley out and then unfold the mattress and a folding foot which supports the structure. This solution is lined with a thicker foam mattress.

Type E - BELGIAN (Belgian frame)

The construction of the Belgian sleeping section resembles a camp bed and it is unfolded in a very similar manner. Due to its thinner mattress, it is intended for an occasional use.

Type G - DL

Remove the back rest cushions and then lay down the back of the furniture.

Type H - KLIK-KLAK

This type of sleeping solution is unfolded as a traditional sofa.

Explanation of pictograms:

	modular system		movable headrests with adjustable tilt angle which form an integral part of the furniture		decorative wood elements (shelves, countertops)
	sleeping function type A (DELFIN)		optional removable headrests that can be installed on any backrest		decorative glass elements
	sleeping function type B (LEOPARD)		backrest / corner elements with loose cushions		swivel armchair
	sleeping function type C (TROLLEY)		a bedding container		swivel armchair (360°)
	sleeping function type D (SEDALIFT)		additional container / compartment		possible selection of armchair base type
	sleeping function type E (BELGIAN)		high resilience foam		wooden legs (possible selection of wood colour)
	sleeping function type G (DL)		polyurethane foam		chrome legs
	sleeping function type H (KLIK-KLAK)		wave springs		metal legs
	manually unfolded relaxation function		Bonell springs		plastic legs
	electrically unfolded relaxation function – the armchair has to be connected with a cable to an electric mains socket		liquor cabinet with a box		transparent legs
	electrically unfolded relaxation function – the armchair is supplied from a battery – no need to have a mains socket		audio system (optional)		wheels
	required distance from the wall		selection of upholstery types (leather or fabric)		
	movable armrests with adjustable tilt angle		possible combination of at least two colours (leather with leather, leather with fabric or fabric with fabric)		
	movable seat, controlled by electrical sensors		selection of thread colour		
	movable backrests in the corner element		selection of braided line colour		

The offer shall not be any offer in accordance with the regulations of the Civil Code. The colors of upholstery can differ from the presented versions on the photographs. The producer reserves the right to make structural amendments in offered upholstery without changing its general character. Exchanges of upholstery are take into consideration with a tolerance of 3%.

Explanation of symbols used in modular systems:

1, 1(50), 1(60), 1(70)	an armchair with two sides (the seat width in brackets)	1KL/1KR	an angular longchair, left (L) or right (R)
