PART OF MY DESIGN

PART OF MY DESIGN

FURNISHING YOUR OWN INTERIORS ALSO MEANS REFLECTING ON YOUR OWN EXISTENCE AND PRIORITIES. THIS IS WHY WHEN WE DESIGN OUR TABLES AND ACCESSORIES WE THINK ABOUT MAKING THEIR FUTURE USERS FEEL GOOD WITH SIMPLE AND PERSONAL DESIGNS.
AN INFINITI TABLE IS AN INTEGRAL PART OF YOUR LIFE, A STATIC WITNESS OF YOUR INTERIOR.

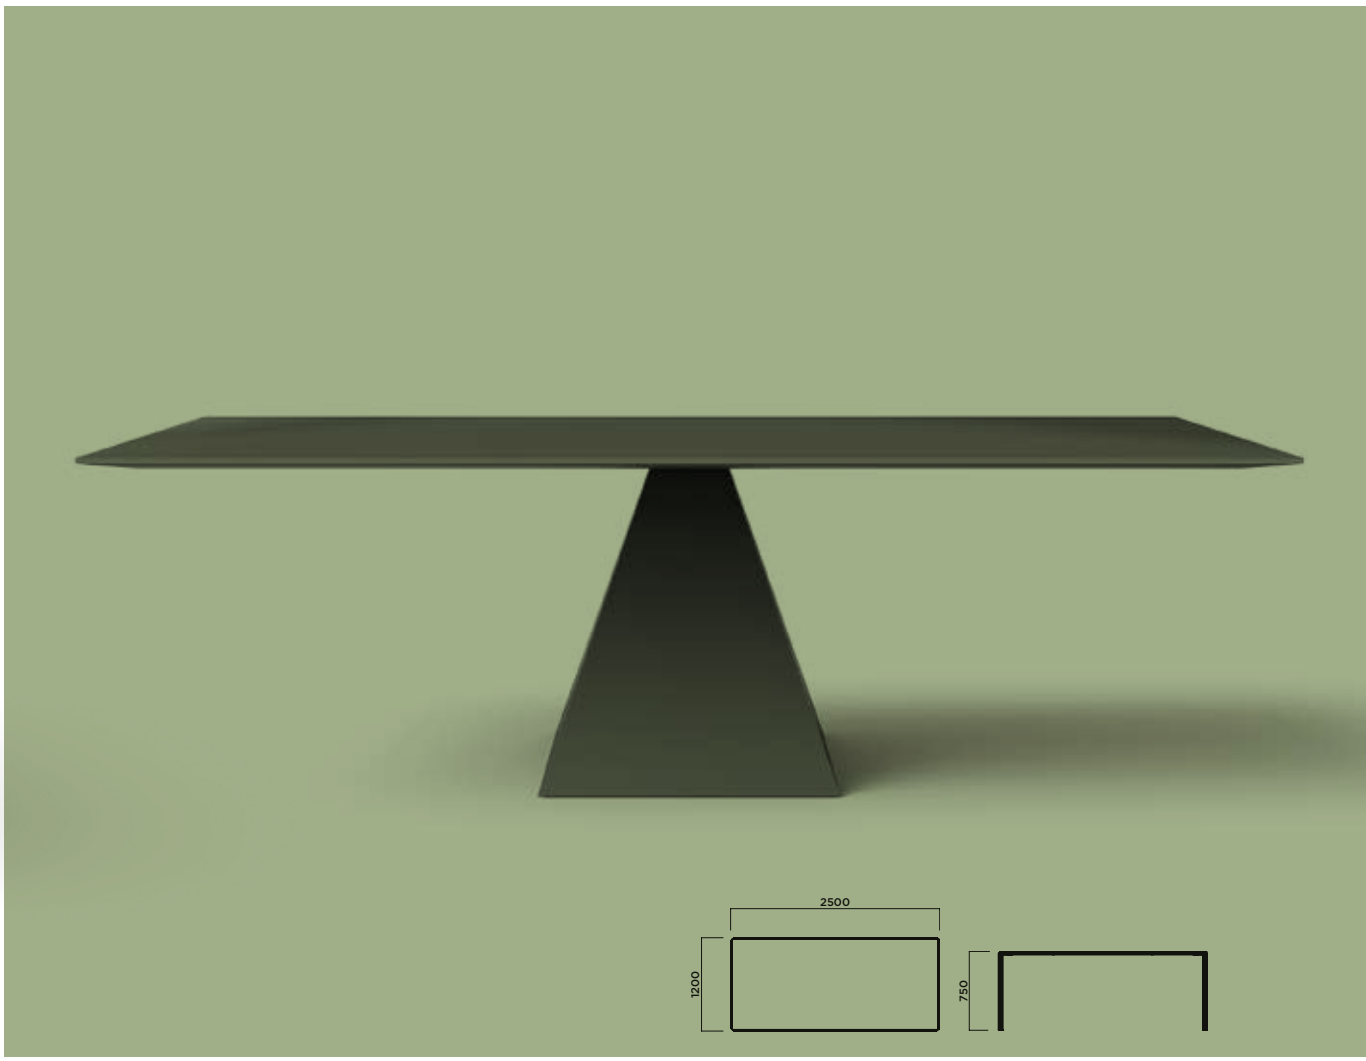
LANDING

LANDING

DESIGN:
BROGLIATOTRAVERSO



ICONIC TABLE, LANDING IS THE COMPOSITIVE SYNTHESIS BETWEEN LIGHTNESS AND SOLIDITY.
THE HORIZONTALITY OF THE LARGE TOP RESTS ON THE TIP OF THE PYRAMIDAL BASE, IN A MAGICAL BALANCE THAT MAKES IT A UNIQUE PIECE OF ITS KIND.

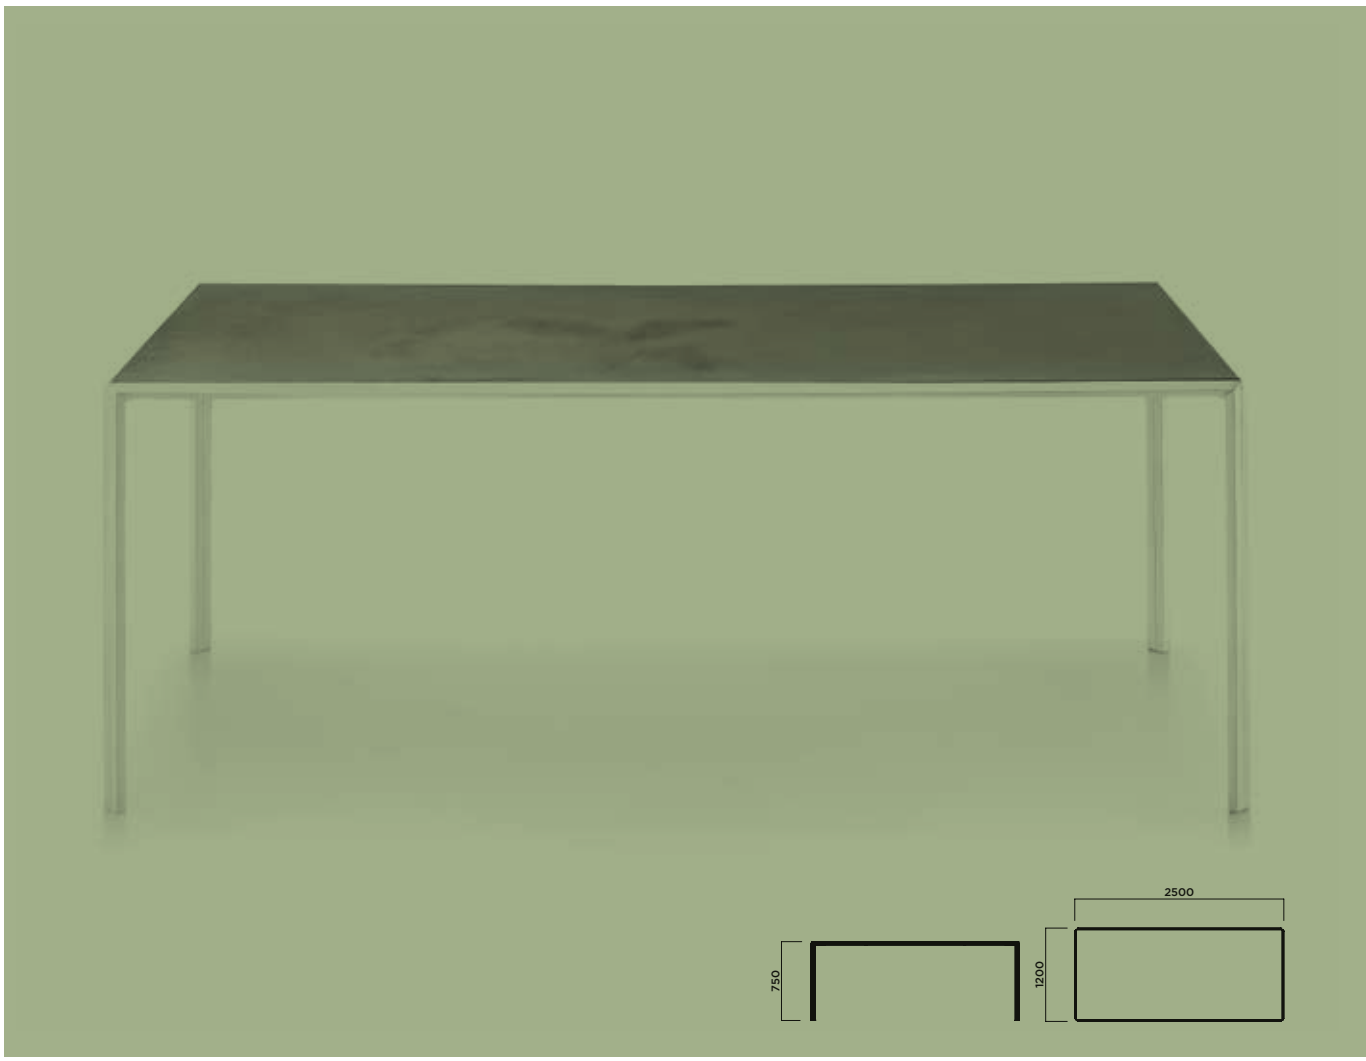
DUEPERDUE

DUEPERDUE

DESIGN:
BROGLIATOTRAVERSO



DUEPERDUE IS AN ELEGANT, MINIMALIST TABLE, IDEAL IN MODERN SPACES DECORATED WITH A SOFT COLOUR PALETTE. IT CAN BE COMPLETELY DISASSEMBLED AND SHIPPED IN A FLAT-PACK. ITS DISTINCTIVE FEATURE IS A MARVELLOUS EDGE, CREATED WITH A DIAGONAL SECTIONING OF ITS 2X2 CM STEEL FRAME IN LINE WITH THE LEGS.

NEXT TABLE

NEXT TABLE

DESIGN:
ANDREAS OSTWALD

AVAILABLE IN MANY DIFFERENT MATERIALS, NEXT IS THE IDEAL MODEL FOR MINIMALIST ENVIRONMENTS, ESPECIALLY IN ITS “ALL WOOD” VERSION WITH TABLE TOP IN HERITAGE OAK, FEATURING MOTTLES AND KNOTS. EASY TO ASSEMBLE, IT IS VERY LIGHT AND PAIRS WELL WITH INFINITI CHAIRS IN A DINING ROOM OR IN A LIVING ROOM.

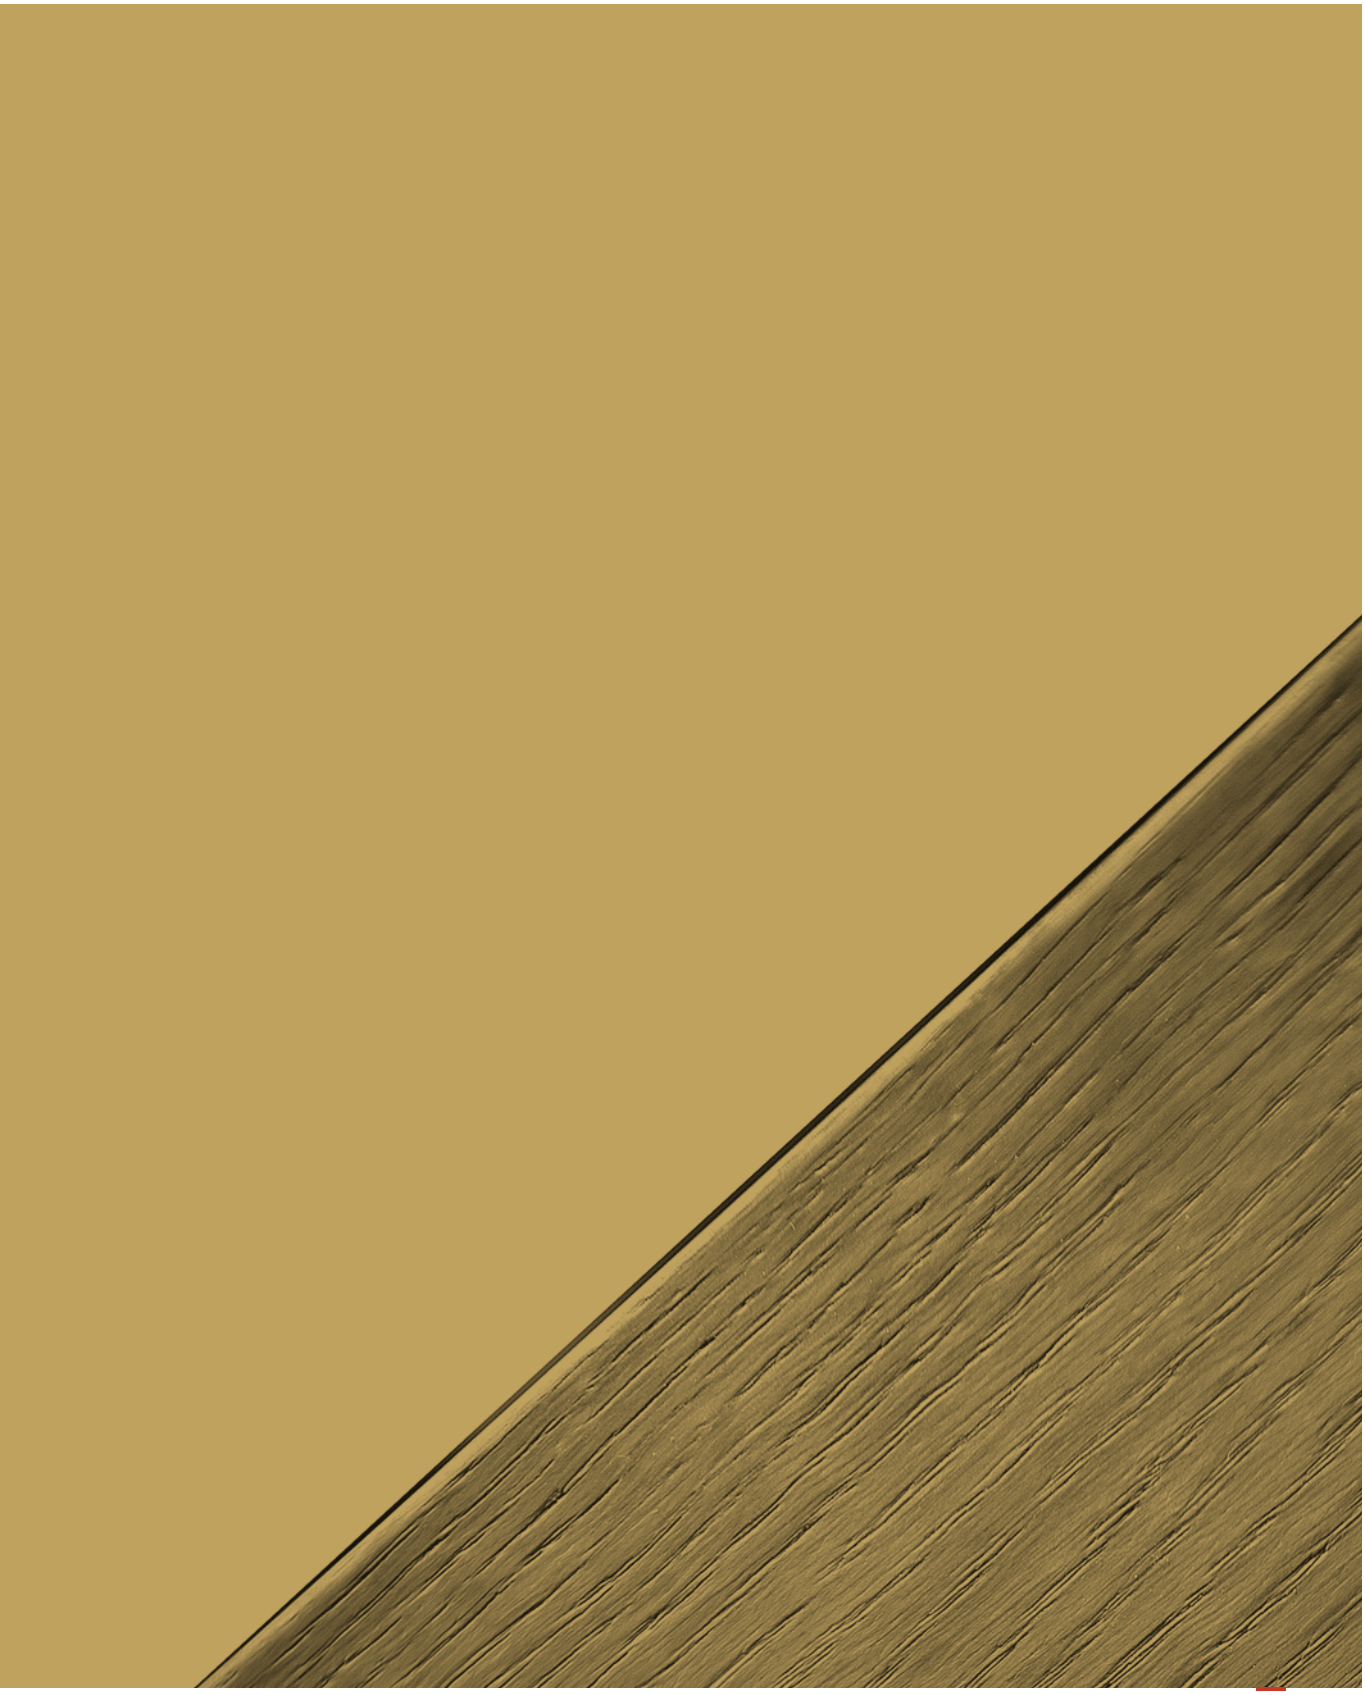
INFINITI MATERIALS



ALLUMINIO

QUESTO METALLO UNISCE DOTI DI LEGGEREZZA CON RESISTENZA E NATURALE BELLEZZA ESTETICA DELLE SUPERFICI. LA SUPERFICIE DELL'ALLUMINIO PUÒ ESSERE ANODIZZATA, UN TRATTAMENTO SPECIALE CHE HA LO SCOPO DI AUMENTARE LA RESISTENZA ALLA CORROSIONE RENDENDO LA SUPERFICIE PIÙ OPACA. L'UTILIZZO DELL'ALLUMINIO SVARIA DALL'ESTRUSIONE, DAL TUBO ANODIZZATO ALLA PRESSOFUSIONE

ALUMINIUM

This metal combines lightness and resistance qualities with natural aesthetic beauty of the surfaces. The aluminium surface can be anodized, a special treatment that has the purpose to increase resistance to corrosion, making the surface matt. Aluminium can be used for extrusion, anodized tubes, die-casting.

ACCIAIO

L'ACCIAIO È USATO NELLA CREAZIONE DELLE STRUTTURE DI SEDIE E DI SGABELLI, CON TUBOLARI A SEZIONE QUADRATA E ROTONDA AD ALTA RESISTENZA O CON TONDINO. INOLTRE, GRAZIE A TECNOLOGIE AVANZATE (COME IL LASER 3D), RIUSCIAMO AD OTTENERE FORME SEMPRE PIÙ COMPLESSE. I PRODOTTI SONO DISPONIBILI CON DIVERSE FINITURE SUPERFICIALI AD ELEVATI STANDARD QUALITATIVI (VERNICIATURA OPACA O GOFFRATA, CROMATURA).

STEEL

Steel is used in creating the seat and stool structures with high resistance square and round section tube or with rod bar. Moreover, thanks to advanced technologies (like 3D laser), we are able to obtain more complex shapes. The products can have different surface finishes, all with high quality standards (matt or embossed painting, chrome).

CORIAN®

LUCENTE E SETOSO AL TATTO AL PUNTO DA MASCHERARE LA SUA RESISTENZA A MACCHIE E RESIDUI, CORIAN® È UN MATERIALE DUREVOLE, NON POROSO E FACILE DA PULIRE. È ESTREMAMENTE RESISTENTE AGLI AGENTI ESTERNI, SOPRATTUTTO ALLA LUCE E AL CALORE. SI TRATTA DI UN MATERIALE TRASLUCENTE, DISPONIBILE IN DIVERSE FINITURE COME L'EFFETTO "PIETRA" E CON SPESSORI MOLTO RIDOTTI.

CORIAN®

Shiny and silky to the touch, such to hide its resistance to stains and residues, Corian® is a durable, non-porous, easy to clean material. It is extremely resistant to external agents, above all light and heat. It is a translucent material, available in various finishes, like the "stone" effect, and ultra-thin thicknesses.

FENIX®

—

MATERIALE INNOVATIVO - NANOTECH, SUPER OPACO - CREATO PER L'INTERIOR DESIGN. CON UNA BASSA RIFLESSIONE DELLA LUCE, LA SUA SUPERFICIE È ESTREMAMENTE OPACA, ANTI IMPRONTE DIGITALI E PIACEVOLMENTE SOFT TOUCH. LA PARTE ESTERIORE DI FENIX NTM® È OTTENUTA CON L'AUSILIO DI NANO-TECNOLOGIE ED È CARATTERIZZATA DA UNA SUPER-FICIE TRATTATA CON RESINE ACRILICHE DI NUOVA GENERAZIONE, INDURITE E FISSATE ATTRAVERSO IL PROCESSO DI ELECTRON BEAM CURING. GRAZIE A QUESTE CARATTERISTICHE FENIX NTM® SI RIGENERA DA EVENTUALI MICROGRAFFI SUPERFICIALI GRAZIE ALLA TERMORIPARABILITÀ.

FENIX NTM®

Innovative-nanotech material, ultra matt and soft touch- conceived for interior design. With low light reflection, its surface is highly matt, anti-fingerprints and pleasantly soft touch. The exterior side of FENIX NTM is obtained with nanotechnologies and is characterised by a surface treated with acrylic resins of new generation, hardened and bound through the Electron Beam Curing process. Thanks to these characteristics, Fenix NTM regenerates itself from any surface micro-scratches thanks to its thermo-repairing quality.

MICROTOPPING

—

È UN PRODOTTO ARTIGIANALE, INTERAMENTE HAND MADE, APPLICATO DA PROFESSIONISTI A MANO SU OGNI PIANO. QUESTO FA SÌ CHE IL RISULTATO FINALE SIA SEMPRE DIVERSO, RENDENDO OGNI SINGOLO TAVOLO UNICO. MICROTOPPING È IL RISULTATO DI UN PARTICOLARE COMPOSTO DI POLIMERO LIQUIDO E DI UNA PARTICOLARE MISCELA CEMENTIZIA, ASSIEME ALL'UTILIZZO DI INGREDIENTI NATURALI IN BASE ACQUA ED ESENTE DA VOC (COMPOSTI ORGANICI VOLATILI). OLTRE AL MERAVIGLIOSO EFFETTO "CEMENTO", DAL TOCCO MINIMAL E INDUSTRIALE, MICROTOPPING ASSICURA UN'ALTA RESISTENZA AGLI URTI, ALL'ABRASIONE E ALLA COMPRESSIONE.

MICROTOPPING

It is a handicrafted, entirely hand-made product, manually applied by professionals on each surface. Thanks to this, the final result is always different, and each table is unique. Microtopping is the result of a particular liquid polymer compound and a particular cement mixture, combined to natural, water-based ingredients, free from VOC (volatile organic compounds). In addition to the amazing "cement" effect, of minimal and industrial touch, Microtopping ensures high resistance against shocks, abrasion and compression.

PRECOMPOSTO MDF

(MEDIUM DENSITY FIBREBOARD, PANNELLO DI FIBRA A MEDIA DENSITÀ) LE FIBRE DEL LEGNO VENGONO MISCELATE A PARTICOLARI RESINE. DOPO UN PRESSAGGIO PREVENTIVO PER ELIMINARE L'ARIA PRIMA DELLA PRESSATURA VERA E PROPRIA, IL CALORE E LA PRESSIONE ATTIVANO LA RESINA CHE "LEGA" LE FIBRE DANDO VITA AL PANNELLO MDF. PARTICOLARMENTE RESISTENTE, RISULTA IL PIÙ ADATTO ALLA LACCATURA.

MULTILAMINAR WOOD MDF

(Medium density fibreboard) The wood fibres are mixed to particular resins. After a preliminary pressing process to eliminate air before the actual pressing, the heat and pressure active the resin that "binds" the fibres, thus creating the MDF panel.
Particularly resistant, it is the most suitable for lacquering.

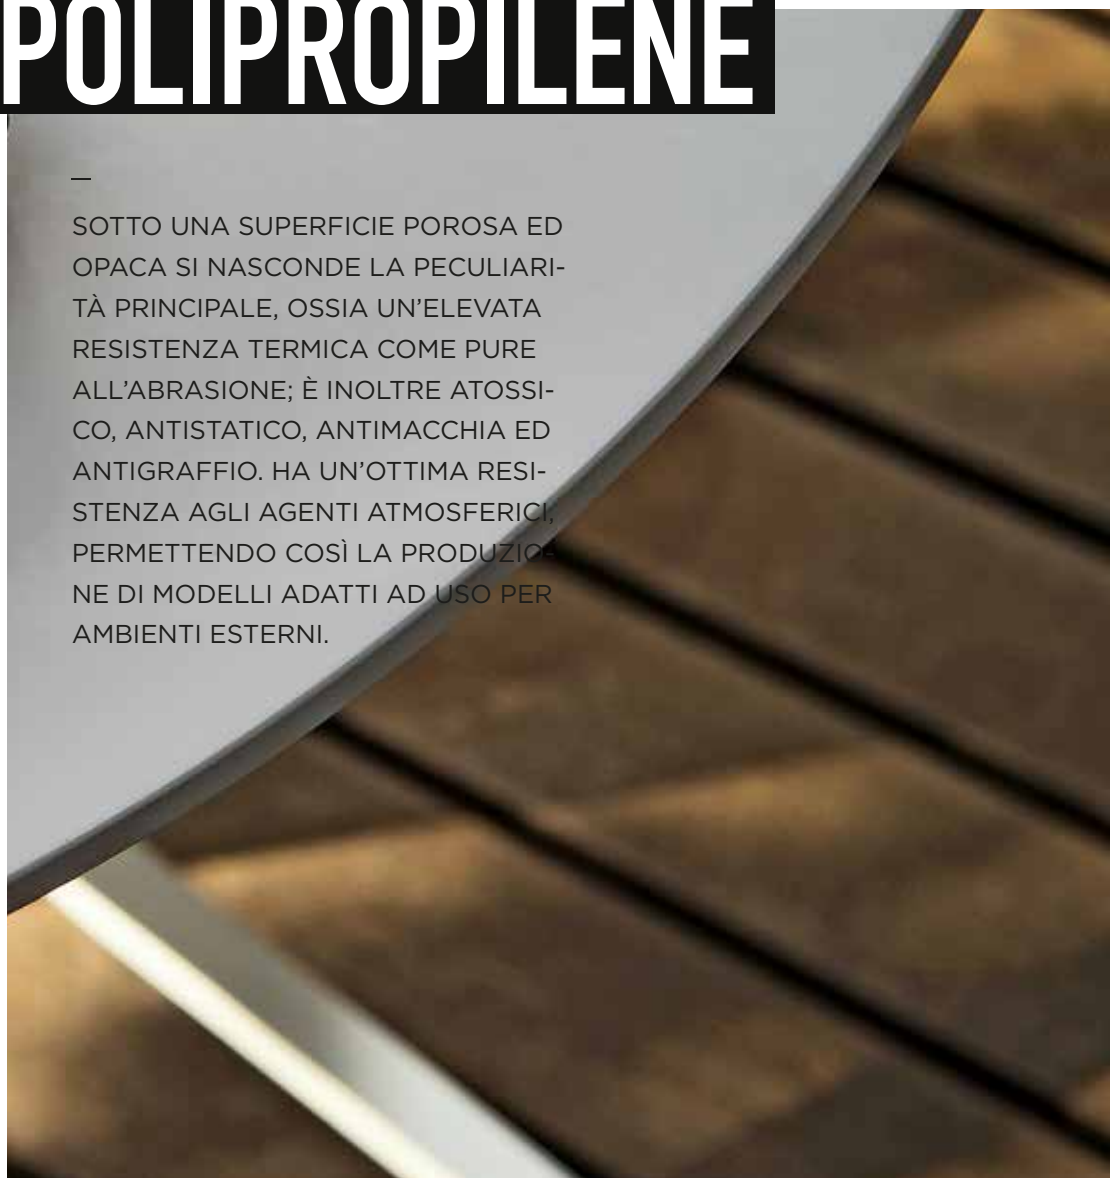
ROVERE HERITAGE

REALIZZATO PARTENDO DA CARTELLE DI ROVERE EUROPEO, SELEZIONATE A MANO E SOTTOPOSTE AD UNA LAVORAZIONE ARTIGIANALE CHE ESALTA LE NATURALI CARATTERISTICHE INTRINSECHE DEL LEGNO COME NODI, VENATURE, FIAMMATURE, MICRO CREPE E STONALIZZAZIONI. LA VITALITÀ DEL MATERIALE È ESALTATA ANCHE DALLE TINTE NATURALI, OTTENUTE TRAMITE L'UTILIZZO DI VERNICI ALL'ACQUA.

HERITAGE OAK

Produced with European oak, hand selected and subject to a handicraft process that enhances the intrinsic natural qualities of the wood such as knots, grains, mottles, micro-cracks and shading effects. The material vitality is also exalted by the natural colours, obtained with the use of water-based paints.

POLIPROPILENE



—

SOTTO UNA SUPERFICIE POROSA ED OPACA SI NASCONDE LA PECULIARITÀ PRINCIPALE, OSSIA UN'ELEVATA RESISTENZA TERMICA COME PURE ALL'ABRASIONE; È INOLTRE ATOSSICO, ANTISTATICO, ANTIMACCHIA ED ANTIGRAFFIO. HA UN'OTTIMA RESISTENZA AGLI AGENTI ATMOSFERICI, PERMETTENDO COSÌ LA PRODUZIONE DI MODELLI ADATTI AD USO PER AMBIENTI ESTERNI.

POLYPROPYLENE

With a porous and opaque surface, its main feature is a high resistance to heat and abrasion. Furthermore it is non-toxic, antistatic, scratches and stains resistant. It has a high resistance to atmospheric agents, so it is meant for outdoor usage.

NEWPANN

—

SI TRATTA DI UN PANNELLO COMPOSITO IN ALLUMINIO, CON FINITURA LACCATA O IMPIALLACCIATO IN ROVERE DISPONIBILE IN DIEVERSE TINTE. I PIANI NEWPANN SONO ESTREMAMENTE SOTTILI E LEGGERI, PERFETTI PER DONARE AGLI AMBIENTI LEGGEREZZA E UN TOCCO DI MINIMALISMO.

NEWPANN

It is a composite panel in aluminium, with lacquered or oak veneer finish, available in various colours. Newpann panels are ultra-thin and light, perfect to confer lightness to the environments and an essential touch.

TERRAZZO

—

TRADIZIONALMENTE UTILIZZATO PER LA PAVIMENTAZIONE, IL TERRAZZO È UN MATERIALE AGGREGATO REALIZZATO MESCOLANDO FRAMMENTI DI MARMO E PIETRA IN CEMENTO. TERRAZZO UTILIZZA TRUCIOLI DI MATERIALI CHE ALTRIMENTI ANDREBBERO SPRECATI E LE SUE CREDENZIALI DI SOSTENIBILITÀ SONO UN PERFETTO ABBINAMENTO CON LA SUA VERSATILITÀ. IL MATERIALE PUÒ ESSERE AGGIORNATO STAGIONE SU STAGIONE, PUR EVOCANDO IL FASCINO CLASSICO DEL MARMO E DELLA PIETRA

TERRAZZO

Traditionally used for flooring, terrazzo is an aggregate material that is made by mixing chips of marble and stone into cement.
Terrazzo makes use of small chips of materials that would otherwise go to waste, and its sustainability credentials are a neat match with its versatility. The material can be updated season on season, while still evoking the classic appeal of marble and stone.

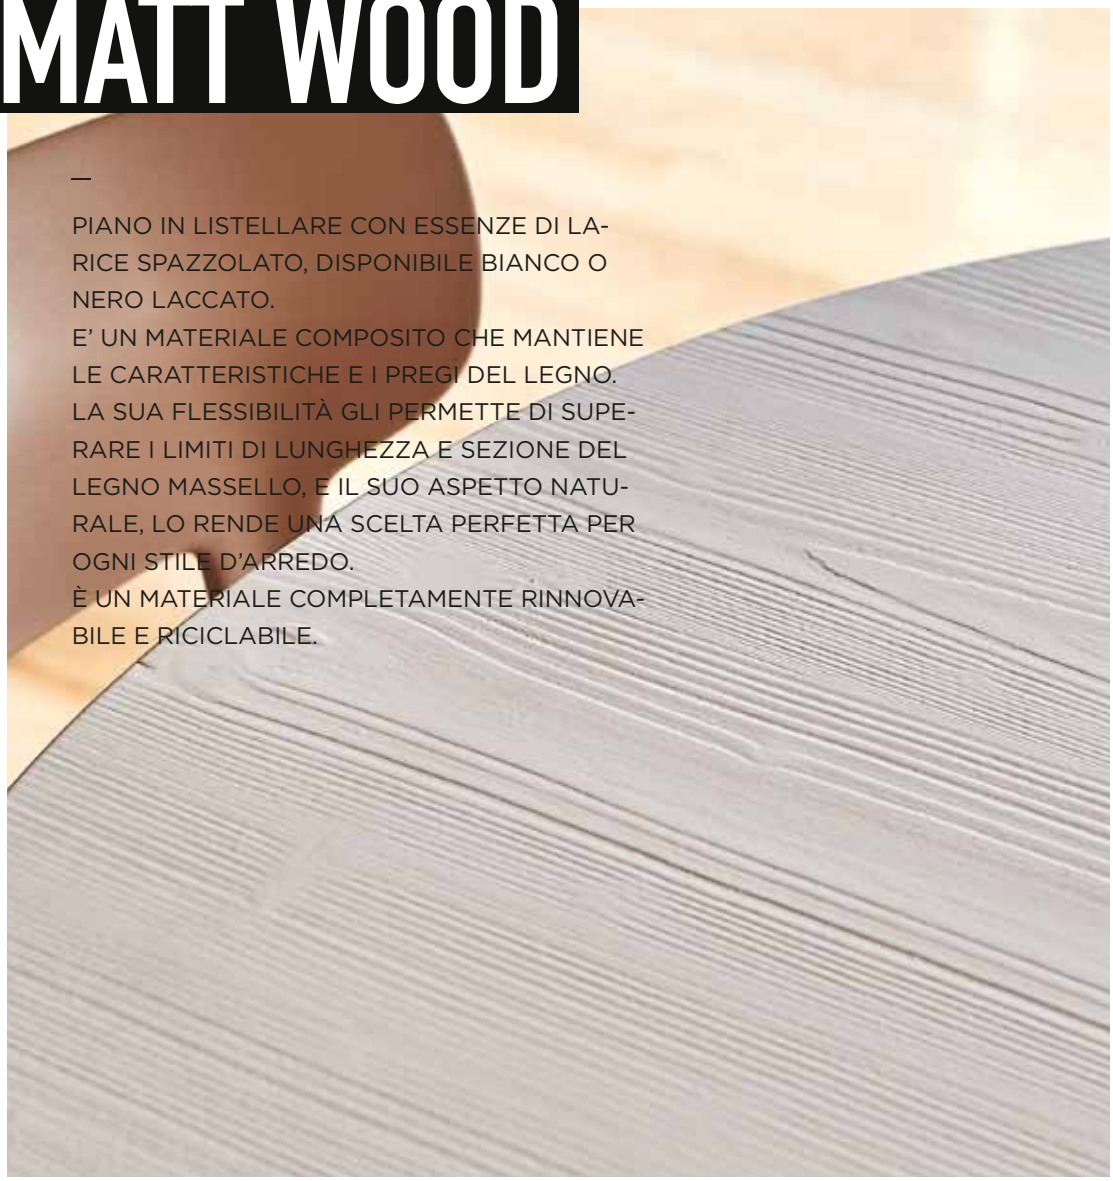
LIGHT SURFACE

PANNELLO SANDWICH CON MATERIALE ALLEGGERITO INSERITO TRA ALLUMINIO E POLISTIRENE ESPANSO, ALL'INTERNO DI UN TELAIO PERIMETRALE IN LEGNO. LA COVER È COSTITUITA DA UN FOGLIO DI LAMINATO LACCATO. È UN MATERIALE FACILE DA PULIRE E MORBIDO AL TATTO.

LIGHT SURFACE

Sandwich panel with lightened material inserted between aluminum and expanded polystyrene, inside a wooden perimeter frame. The cover consists in a sheet of lacquered laminate. Light Surface is is easy to clean and soft to the touch.

MATT WOOD



—

PIANO IN LISTELLARE CON ESSENZE DI LARICE SPAZZOLATO, DISPONIBILE BIANCO O NERO LACCATO.
E' UN MATERIALE COMPOSITO CHE MANTIENE LE CARATTERISTICHE E I PREGI DEL LEGNO.
LA SUA FLESSIBILITÀ GLI PERMETTE DI SUPERARE I LIMITI DI LUNGHEZZA E SEZIONE DEL LEGNO MASSELLO, E IL SUO ASPETTO NATURALE, LO RENDE UNA SCELTA PERFETTA PER OGNI STILE D'ARREDO.
È UN MATERIALE COMPLETAMENTE RINNOVABILE E RICICLABILE.

MATT WOOD

Top in blockboard with essences of brushed larch, available in white or black lacquered.
It is a composite material with characteristics and qualities of wood. Its flexibility allows it to exceed the limits of length and section of solid wood, and its natural appearance makes it a perfect choice for any style of furniture.
Matt Wood is completely renewable and recyclable.
