Lust

The idea behind the creation of the Lust model was to create a sofa that, although it is not visible at first glance, has a relaxation function. Why invisible? Because the furniture remains perfectly proportional, regular and pleasant for the eye. It is a modular model, so you can compose the size and shape of the module as desired by deciding whether or not the module is equipped with electrical features: Relaxation and/or the adjustment of the head rests. The comfort is enhanced by the very shape of the sofa – wide and deep as well as the filling which consists of a special composition of high-elastic foams, lazy foams and quilts filled with silicone down. In short, top-of-the-range comfort for the body and a feast for the eye, because regardless of the selected modules, it looks exceptionally harmonious and soft, yet unconventional.

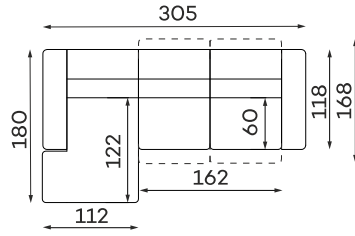

Corner sofas

Available in a left-hand or right-hand configuration. The sets below are left-hand facing. _____

LUST SET 1 CORNER

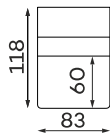

LUST SET 1 CORNER ELECTRIC RELAX

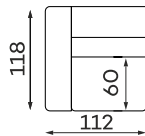

Modular units

Available in a left-hand or right-hand configuration. The sets below are left-hand facing. _____

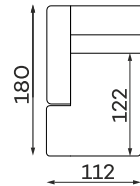

1-SEAT UNIT

1-SEAT ONE ARM UNIT

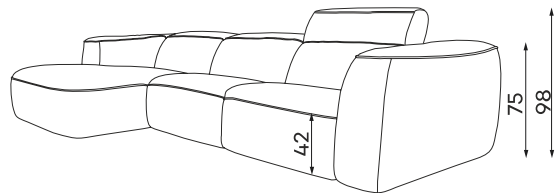

CHAISE

All dimensions of upholstered furniture are given with a tolerance of +/- 4 cm.

Other dimensions

What makes the Lust sofa stand out?

They make the seat more flexible and provide excellent underlying support for a highly flexible foam layer.

You can choose the fabric from dedicated series, including easy-to-clean fabrics.

The upholstered back allows you to put it in the middle of the living room.

Adjustable headrests

The highly-flexible foam improves the durability and elasticity of the seat, preventing deformations.

The ergonomic and comfortable design of the backrest and seat perfectly fits the curve of the human body.

The series comes with several colours of legs. Choose your own colour. Do you want to buy the same legs for a chest of drawers? Of course, you can!
