

PRODUCT DETAILS

In compliance with Law 126/91 and Legislative Decree 101/97

LOUNGE RIRI-R13

LOUNGE ARMCHAIRS

DIMENSIONS (Tolerance \pm 0,5 mm)

Width	74,5 cm
Height	75,5 cm
Depth	73,5 cm
Seat height	42,5 cm
Arm rest height	70,0 cm

WEIGHT

Base weight	7 kg
Body weight	10.3 kg

ENCUMBRANCE

Body dimensions	0.26 m ³
Base footprint	0,12 m ³

PACKAGING

Body Packing	one cardboard boxes
Base Packaging	one cardboard boxes

MATERIALS USED

INTERNAL STRUCTURE

Steel shell structure moulded in cold-cure polyurethane foam.

Cushion moulded in cold-cure polyurethane foam.

Centre to centre distance between holes under the shell for mounting the base: 140 x 140 mm. Wood insert under the shell to staple the fabric.

Predisposition for the cut between the seat and backrest for pulling and securing the fabric.

We recommend using Velcro to secure the seat to the seat.

PADDING

"POLFLEX" non-deformable cold-molded polyurethane average density 60 kg/mc.

It is fireproof according to the following regulations:

- Class 1IM Italian: UNI9175/2010
- French class M4 (NFP 92-507:2004)
- California Technical Bulletin 117:2013, Section 3
- English class: BS 5852-2-1982 (CRIB 5) - on request

BASE

Polished chrome or RAL 9005 matt black painted metal base, swivelling. Diameter 710mm x Height 270mm (metal plate included).

FABRIC CONSUMPTION

2.2 mt. tessuto

77.69 piedi pelle

APPLIED STANDARDS

- WOOD PARTS: FSC - CARB ATCM 93120 Phase II - U.S. EPA TSCA Title VI - CANFER.
- Seat designed in compliance with the safety, resistance and durability requirements according to UNI EN 16139.

INSTRUCTION FOR USE AND MAINTENANCE

This product is for indoor use.

- The armchair assembly must be carried out according to our "assembly instructions".
- Avoid use of solvents and abrasives.
- Use steam to recover dents on foam; you can ask for the related illustrated instructions.
- The possible occurrence of smell given off from the product as it is taken out of the packing does not represent any source of danger and will fade away by exposing the product in a ventilated environment.
- Disposal: at the end of the life cycle of the product, it must be duly conveyed to the public network for disposal of urban waste. Please refer to your local norms and regulations. The polyurethane foam is an inert and non-polluting material. It can be disposed of like a standard non-recyclable waste.
