

Baluna by GRUPA

# A GAME OF LIGHT AND SHADE

Designing Baluna, we aimed to design light itself; the way it occupies space and affects mood. The custom designed silent dimmer enables maximum light intensity control, and the blown glass opal diffuser with a carefully selected LED light bulb, ensures a perfect level of light dispersion.

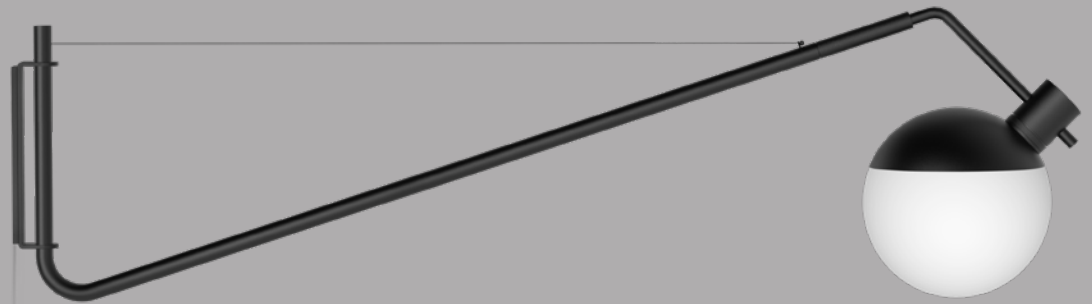

UP, DOWN  
AND 360°

The opal glass diffuser, which can rotate around its axis infinitely, achieves a highly precise control over ambient lighting. The telescopic bar enables swift adjustments in the lengths of both the wall-mounted and ceiling lamps.

WHEN FORM  
MEETS  
FUNCTION

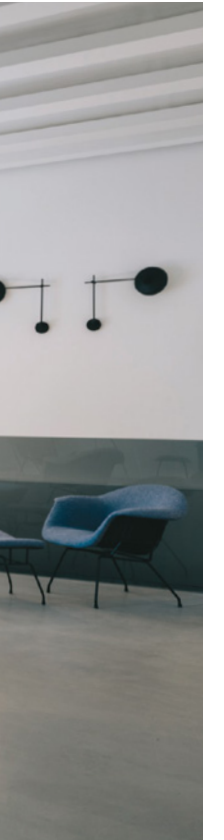

All functional parts, including the power switch, dimmer, power cord and powder coated tightening rings, have all been custom designed to fit seamlessly into the form of the lamp.

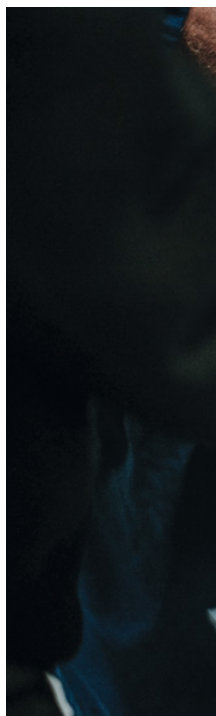

MADE BY  
ARTISANS

Every segment of Baluna has passed through the hands of master craftsmanship, who shaped and painted the tubing, spin formed the shades and hand blew the glass. Their skillful eyes and expert touch guarantee the quality of each and every lamp.
