Sayl®

Fewer parts, less material, and still everything  
a good chair should be

**Sayl**  
Designed by Yves Béhar

Good design, healthy support, and exceptional value are always attractive – and Sayl delivers all three. By using smart engineering to transform simple materials, we were able to make Sayl attainable for more people. Fewer parts and less material also mean a smaller environmental impact.

Sayl designer Yves Béhar and our development team considered and reconsidered every part of the design – and, in the end, created a full family of seating that sets the reference point in its class for quality, performance, and design.

## Performance

Sayl's unframed 3D Intelligent® back lets you stretch and move, striking a healthy balance between support and freedom. The elastomer strands vary in thickness and tension to provide greater support in the transition areas along the spine and less everywhere else, to encourage a full range of seated movement.

The foundational shell of the upholstered work chair mimics the 3D Intelligent suspension, providing similar dynamic support in a more traditional back. An optional lumbar support is available on both work chair models and provides adjustment over a ten centimetre range.

The construction of Sayl's 3D Intelligent suspension back provide integrated PostureFit® sacral support, which empowers your body to maintain a healthful upright posture with less fatigue.

The frameless 3D Intelligent suspension back allows freedom of movement while providing proper support.

The back of the upholstered work chair and stool, shown here with adjustable lumbar support, is engineered to mimic the dynamic support of 3D Intelligent suspension.

Optional lumbar support, available on Sayl work chairs and stools, can be adjusted vertically to fit the natural curve of your spine.

## Design

Inspired by suspension bridges—structures that deliver the most using the least material—Yves Béhar applied the engineering principles of these amazing structures to create Sayl. The Eco-Dematerialized™ design of the work chair and stool uses less material in more inventive ways to provide ergonomic support for people up to 159 kg (350 pounds).

Sayl's unframed back and Y-Tower® support create a striking visual aesthetic that reveals both the designer's inspiration and intent. Whether you choose the full-suspension or upholstered back, an expressive colour palette gives you plenty of options for personalising your chair.

## About Yves Béhar

A graduate of the Art Centre College of Design, Yves Béhar started out working with high-tech Silicon Valley clients, eventually gravitating to the sport, apparel, technology, and furniture arenas. His admiration of Charles and Ray Eames first attracted him to Herman Miller. "Design is very much at the centre of Herman Miller's culture," he says. "So one day I just picked up the phone, called them, and said, 'Let's work together.'" His collaborations with Herman Miller include Sayl chairs and Public Office Landscape™.

## Materials

Sayl offers a variety of ways to personalise the look of your chair or stool. The materials below reflect only a portion of the textiles available. Please speak to your Herman Miller representative for the most current textiles and materials available.

### Sayl Work Chair

#### Suspension Back Finish

#### Seat Textiles

#### Armpad Finish

\*\*\*Aquarius is currently the only fabric option available for Sayl that is certified for domestic applications in the UK. Therefore when a Sayl chair is used in a domestic application in the UK, it must be specified with Aquarius fabric.

#### Family

Work Chair with Suspension Back  
Mid Back Work Chair with Upholstered Back  
High Back Work Chair with Upholstered Back  
4-Leg Side Chair with Suspension Back  
Sled Base Side Chair with Suspension Back  
Stool with Suspension Back  
Mid Back Stool with Upholstered Back  
High Back Stool with Upholstered Back

The following information applies only to Sayl work chairs.

#### Overview

Maximum User Weight 159 kg/350 lbs  
Population Range 5th–95th Percentile

#### Back Support

PostureFit Sacral Support Standard  
Lumbar Support Optional

#### Seat Height

Extended-Height Range 419mm–559mm

#### Seat Depth

Fixed Seat 406mm  
Adjustable Seat 406mm–457mm

#### Tilt

Tilt Limiter Optional  
Tilt Limiter with Seat Angle Optional

#### Arm Options

No Arms  
Fixed Arms  
Height Adjustable Arms  
Fully Adjustable 4D Arms

#### Environmental Highlights

Recyclability 91%
